Acts 19:21

When Paul arrived in Rome, Acts 28, he did not have the truth of the Mystery,  
he was bound for the hope of Israel and taught Christ from the Law, Moses & the Prophets.  
When Israeli leadership was not responsive, Isa.6 was pronounced  
and Israel nationally was let go, Acts 28:25. If Paul then received the present truth  
and dwelt 2 years in Rome receiving all who came to him why would he need to add a postscript  
to the Romans letter when he was living among them when the present truth was revealed?
